

— MPR40 & MPR —

SPRINKLER BODIES MADE
SPECIFICALLY FOR THE MP ROTATOR®*

THE MP ROTATOR® has proven to be the most effective and innovative sprinkler on the market today. To make it even easier to use, Walla Walla Sprinkler Company is now offering the MPR40 sprinkler body. Based on well known pop-up body technology, the MPR40 body provides 40 psi pressure regulation and a check valve. This delivers the water saving function of a drain check valve at a pressure that will give full range performance from the MP Rotator. The MPR40 body and the non-regulated or checked MPR body are high-quality sprinkler bodies made specifically to compliment the MP Rotator.
